Introduction about the Project

Ranchi is one of the 100 smart cities under the Smart City Mission of the Government of India. Accordingly, the Government of Jharkhand envisions to make Ranchi Smart City: **A Knowledge hub for educational excellence along with an efficiently managed traffic and transportation system-based city aided by Information Technology.**

Ranchi Smart City Corporation Limited (RSCCL) was established in the Year 2016 under the Smart City Mission, a scheme sponsored by the Government of India, with focus mainly on excellence in education in the **ABD Location of 647.08 Acres** along with provision of basic amenities like drinking water, sanitation, sewage and solid waste management in a much smarter way to address the challenges of urban infrastructure issues posed by Ranchi's rapidly growing urban population. This 647.08 Acres of land which is a Greenfield Based development will adopt a transit-oriented development (TOD) approach with dense, mixed-use neighborhoods planned along frequent, fast, and reliable high capacity mass transport lines.

Ranchi, through the initiatives under the Smart City Mission program is taking incredible strides to transform itself into a livable, healthy, and sustainable city within a very short span of time. With focus on improving the quality of life for its citizens, Ranchi is embracing people-centric planning practices including strengthening safety and security, public transport services, implementing a progressive parking management system and adopting transit-oriented development principles for urban planning aided by an Integrated Traffic and Transport System which is being developed to provide digital platform for integrating Public transport management, Parking management, Corridor Management (Traffic), IPT Integration, Fare management across the entire city of Ranchi.

RSCCL has purchased this **647.08 Acres** of land in the Capital City of Jharkhand from Heavy Engineering Corporation Ltd (HEC) and has framed the rules & regulations for plot-wise allotment of the purchased land for development of the area and to transform it into a sustainable, equitable and inclusive smart city.

Key Components under this Ranchi Smart City Project :

Under ABD Location of 647.08 Acres :

- » Land development
- » 21 km of roads and road-side plantations
- » Water supply and recycled water
- » Sewerage
- » Storm water
- » Sub stations and site wide power distribution
- » Control and Instrumentation (SCADA)
- » Street lighting
- » Open space and park development
- » River front development
- » Eco park development
- » Lake development
- » Transport hubs
- » EWS housing
- » Bus Rapid Transit
- » Public Bicycle Sharing System

Elements of Smart City Project: Robust IT Connectivity & digitization, Safety & Security for citizens, Waste Water recycling, Vehicle-free zones, Energy efficient street lighting, Pedestrian Pathways, Duct Cabling, Smart Sanitation systems, Rain water harvesting, Solar generated electricity, Smart metering, Intelligent traffic management, Walkability & Transit Oriented Development, Riverfront, parks and open spaces.

For Pan City, an Integrated Traffic and Transport System is being developed that will provide digital platform for integrating Public transport management, Parking management, Corridor Management (Traffic), IPT Integration, Fare management along with integration of ABD's transport and traffic needs. It shall be housed in a **Command Control and Communication Centre** which shall not only act as epicenter to all the traffic and transport related decision making but also cater to the safety and security environment of Ranchi city and in future shall be scaled to other utilities including SWM.

The Project for Command Control and Communication Center is under implementation at this moment. The Important components of this project are:

1. Smart DC (Data Centre) within C4 Building
2. DR Site (hosted on third party /Cloud Service Provider site)
3. Augmentation of citywide OFC Network and field networking components
4. Intelligent Traffic Management System
 - » Adaptive Traffic Control System(ATCS)
 - » Automatic Number Plate Recognition (ANPR) System
 - » Red Light Violation Detection (RLVD) System
 - » Speed Violation Detection (SVD) System
 - » Variable Message Signboards
 - » Public Address(PA)
 - » Emergency Call Box (ECB) System
5. City web portal & mobile app
6. Enterprise GIS portal
7. Integration with existing and proposed system;
 - » Video surveillance system
 - » Smart lighting
 - » ICT-enabled Solid Waste Management(SWM)
 - » e-Challan system
 - » Public bicycle sharing
 - » Smart water supply system
 - » Smart education
 - » Smart health management system
 - » RTS/MRTS and City bus services

Regional Setting

Ranchi, the capital city of Jharkhand is an industrial town and education city which is located in the eastern part of the country. Due to its strategic location and proximity to many mineral and mining reserves, rich industrial base, sound existing knowledge and education infrastructure and high "ease of doing business" Ranchi aspires to be a learning

and knowledge hub of eastern India that provides sustainable and vibrant environment to its citizens, by addressing their socio-economic needs by leveraging its knowledge institution ecosystem.

Ranchi is located in the southern part of the Chotanagpur Plateau, which is the eastern section of the Deccan plateau. Ranchi is located at 23°22'N 85°20'E near to the Tropic of Cancer. Its average elevation is 651 m above sea level.

Investment Opportunities

For development of modern state-of-the-art amenities, Smart City of Ranchi will also offer opportunities to investors in the areas of Real Estate, health, education, housing and hospitality among others. It will be so designed to provide all basic amenities like good quality water and electricity supply, solid waste management system, scientific sewerage and drainage systems, IT connectivity, digitization, e governance and public participation. Sector-wise opportunities are as below:

Physical Infrastructure	Social Infrastructure	Economic Infrastructure	Institutional Infrastructure
Intelligent Public transport	Housing development	Skill development centers	Min Government Max Governance
24x7 Smart water supply	Educational infra	Incubation centers	Ease of doing business
Zero emission like SWM, STPs	Health Care infra	Transit hub	E-governance & M-governance
Connectivity Infra	Entertainment & Recreational	Commercial centers	Safety Security
Commercial hubs	Cultural & fitness centers	Banking centers	Citizen Engagement
Convention Center & Hotels	Parks & Riverfront	Urban Civic Tower	Disaster management

Site Location

Proposed ABD site is strategically located in Ranchi, as it has Proximity with some of the major landmark of the city Airport, Project Building, Hatia Railway Station, Airport, JSCA Stadium, Proposed High Court and Jagannath Temple all are in the vicinity of the site.

The ABD site abuts 45 meter wide sector roads on three sides, out of which two sector roads (west and south) are existing, one sector road from Dhurwa Chowk to Hatia Station (north) along with proposed LRT alignment is the third road and on the fourth side (east) lies the main railway line.

The alignment of sector roads and area reserved for river Latma and Nati are the deciding factor for proposed land use in the Master Plan. Areas next to the main spine are provided by landscaping. The beautiful landscaping is done to attract the people and to create the inviting avenue for the people coming inside the site. The areas next to the main road have been proposed with dense green so that impacts from any vehicular pollution on the main circulation spine is reduced.

The entire ABD site is largely divided in to three Zones Primarily Residential, Institutional & Commercial and facilities are provided in such a manner that everybody has quick pedestrian access to Public Transport, Market Places, Health facilities and recreational areas.
